

## ENGAGING PEOPLE. FOSTERING EMPATHY. CONSERVING THE WILD.

Did you know that reducing paper use, reusing old paper and recycling paper can help the planet? By reducing and recycling paper we can decrease greenhouse gas emissions, energy use, and the number of trees that are cut down!

# REDUCE REUSE RECYCLE

## the basics

### STEP 1

Our first step is to shred the paper up into small pieces.

### STEP 2

Next, we will blend it with water to create a paper pulp.

### STEP 3

Then we will put it on a screen and squeeze out the water and let it dry!
