

# SCAVENGER HUNT

Use Zoo signs and your own observation skills to complete your Zoo scavenger hunt.

## *Northern Passage*

What symbol of the United States has a habitat in this part of the Zoo?

What species of bear lives at the Zoo?

## *African Journey*

What kind of climate are African penguins adapted for?

What animal is unexpectedly helping people save cheetah from extinction?

What are *shadow stripes* and who has them?

What is a group of rhinos called?

What kind of wild habitat do okapis live in?

Which of the lemur species at the Zoo eats mainly fruit?

What does a chimp “grin” mean?

## *The Maryland Wilderness*

What do the wrinkles on the sides a hellbender’s body do?

How many species of amphibians are in the Cave? List them!

What are the two venomous snake species that are native to Maryland?

Why should you **not** remove a box turtle from the wild?
